Ruth Durham

Ruthie-
I'll always remember your problem and hope you're able to turn the key and always stick to your guns.
Best of luck to you both.
God Bless,
Barb '68

Lots of Luck to a real sweet kid and a fellow Latin Scholar. Hope to see yah around some day.

AVERILL PARK HIGH SCHOOL

THRESHOLD
1968

Averill Park High School

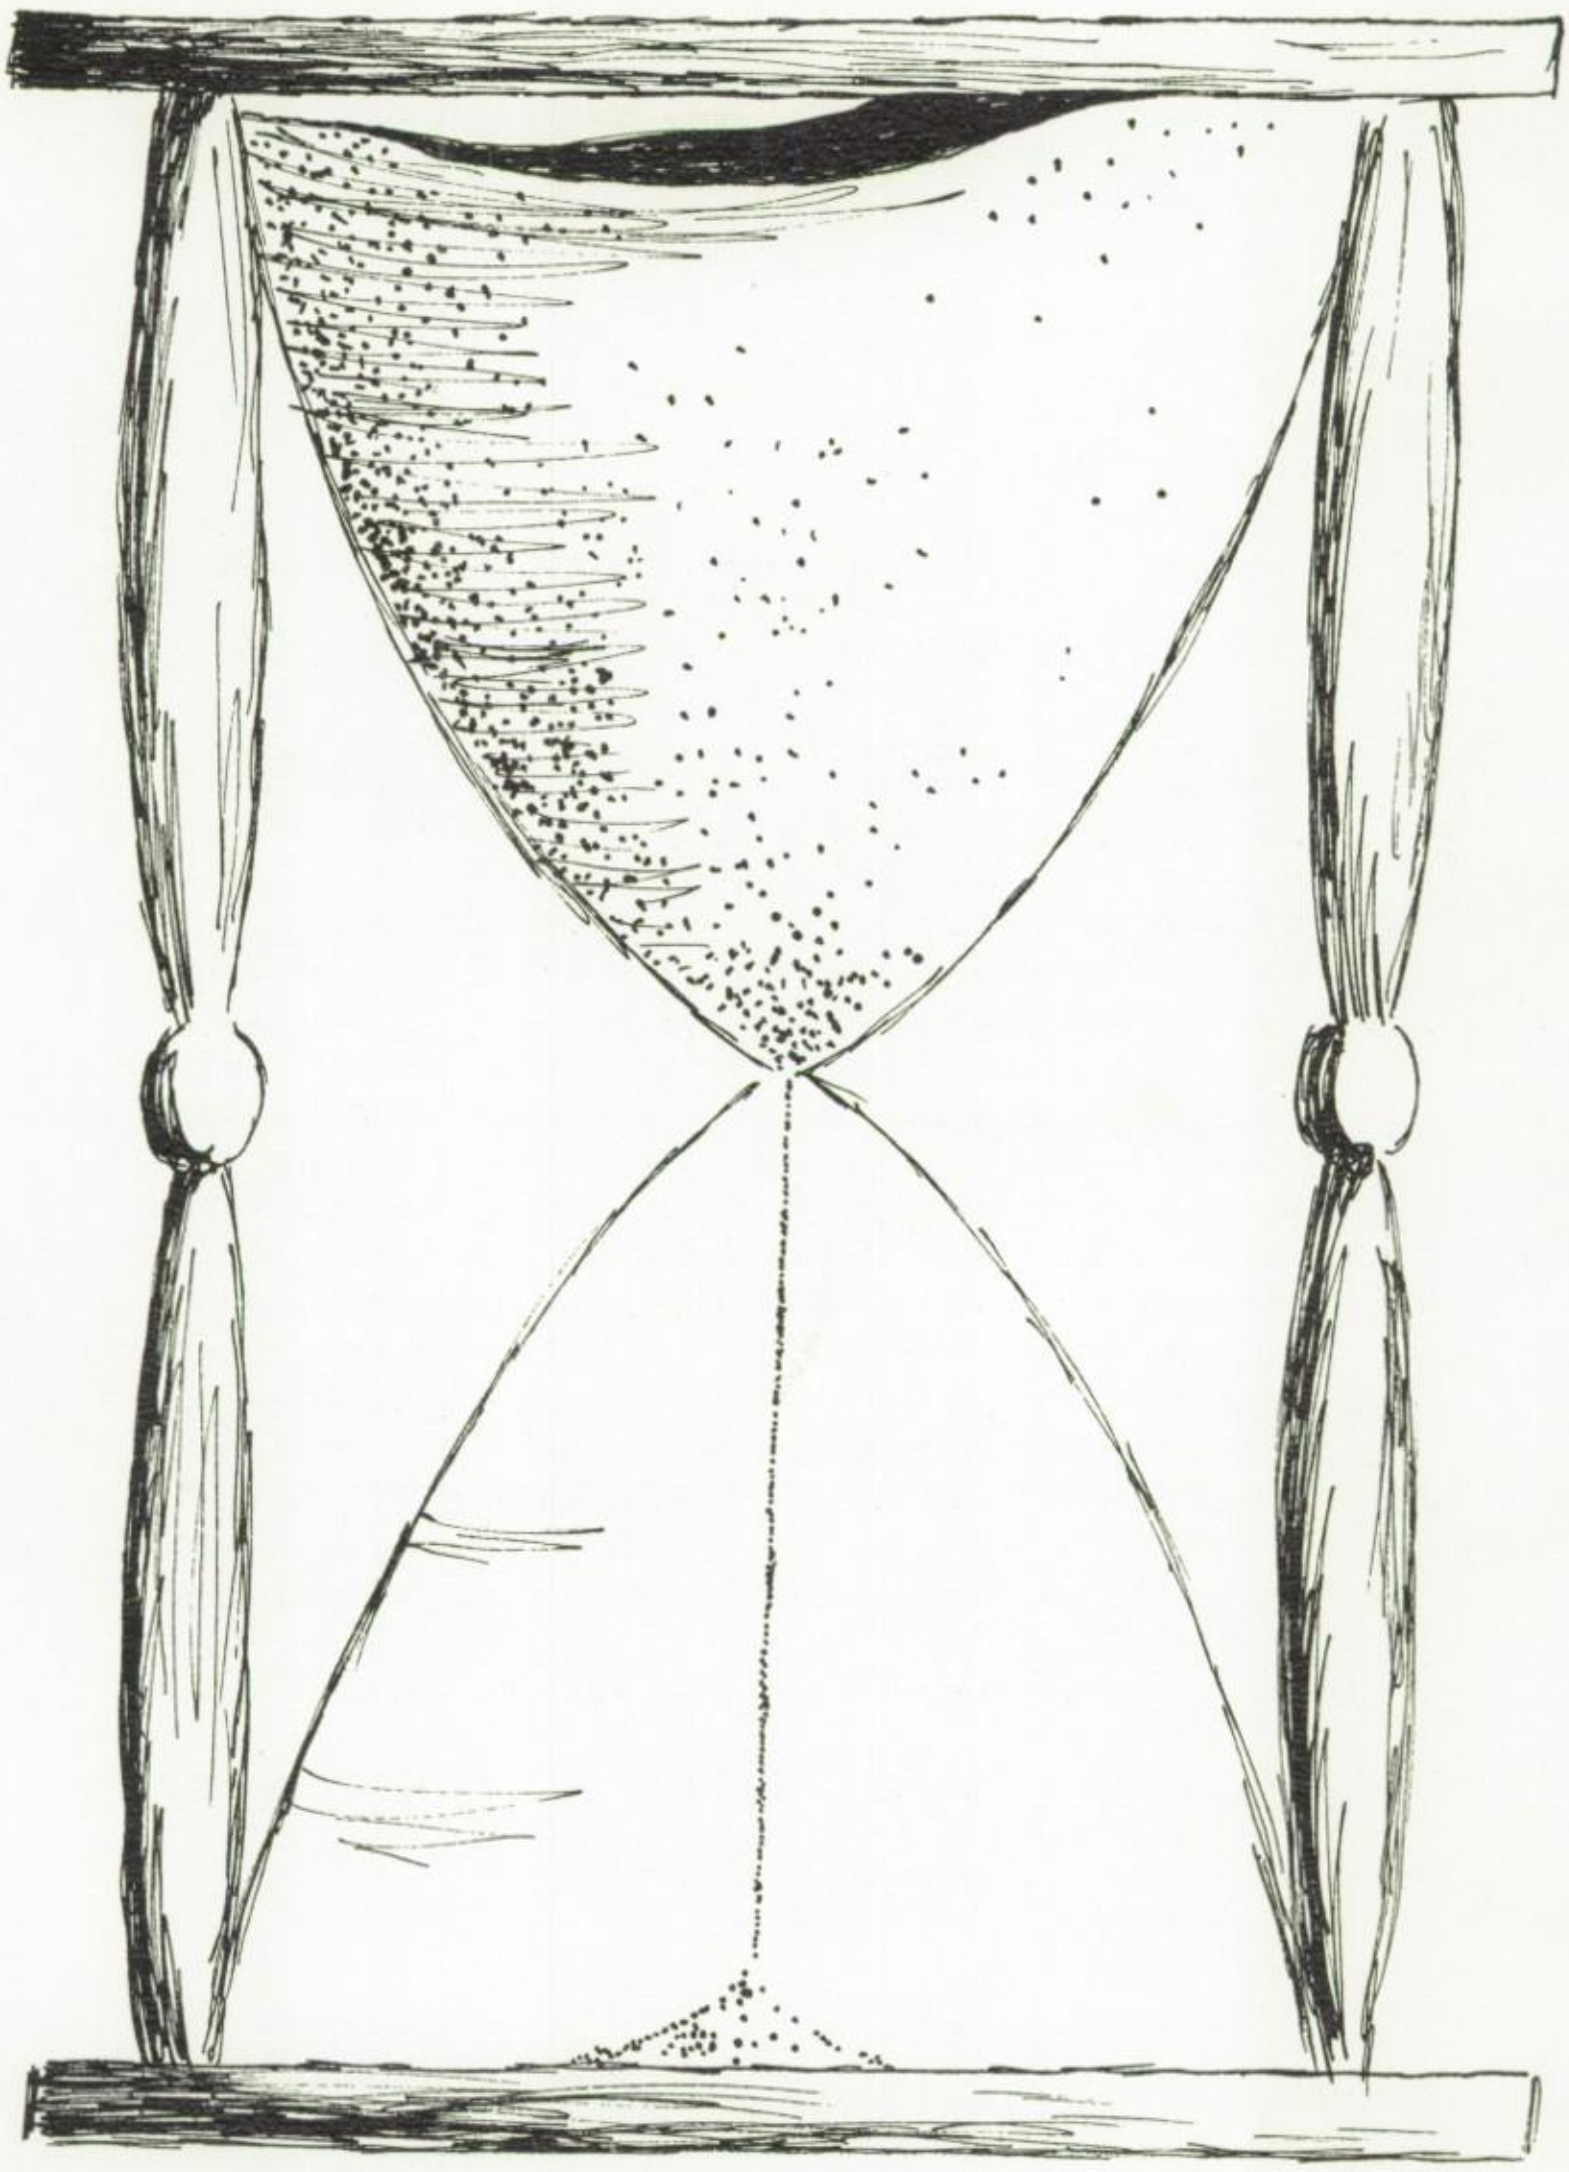
Averill Park

New York

From the early moments of youth until we stand at the threshold of maturity, each of us may look back and recall our years in school. Yet too often we forget that it is not just the years we view but, rather, the separate days which have made up the entity of our school life.

The time between the warning bell for homeroom and the anxiously awaited dismissal bell is the time that we must remember. For it was during those hours that we accumulated our knowledge, learned to accept our responsibility, and cooperated together for the achievement of our goals. Perhaps more important, however, it was in those passing hours that we found lasting friendships between ourselves and the faculty and shared the personal experiences of our own lives which affected so many others.

With awareness of the future we must face, and with crystal memories of our years past, we shall continue to remember what we must all inevitably leave: a day in the life, a day that turned itself into years and reached the moment of our lives that we are now within.



A day in the life

Dedication

The privilege of dedication carries with it the responsibility of judicious choice. In realization of the importance which accompanies such a duty, the class of 1968 dedicates its yearbook to all American servicemen, be they in one of our fifty states or across the seas. The selfless and eternal contribution of these men to our way of life is beyond comprehension and bounds of gratitude. In the potentially explosive world of today, where war is no longer just a distant "possibility", the reality of true courage and sacrifice is made manifest by the service of these men. For it is their lives that shall shape the destiny of our own survival. Indeed, the very freedom which permits the printing of this book is a gift of men like these who once fought and died for a cause which America embraces. And it remains the task of our servicemen today to preserve those freedoms that every man cherishes. We have not yet seen these men fail. Therefore, it is with a profound sense of honor and pride that we devote this, our final class endeavor, to the servicemen of our nation.

"Doesn't anyone have a safety pin?"

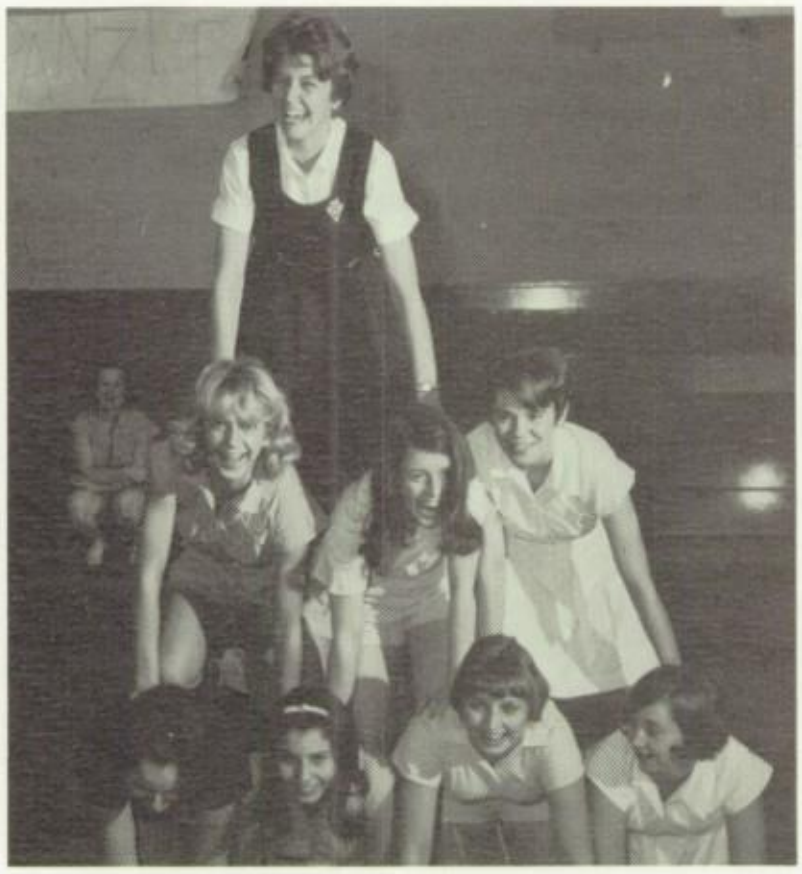
"I came back . . .
to Brillcream."

"And . . . I'm
glad he did!"

"That silly millimeter **does** make a difference!"

"I don't hear any voices, do you?"

Separate days



"Climb every mountain . . ."

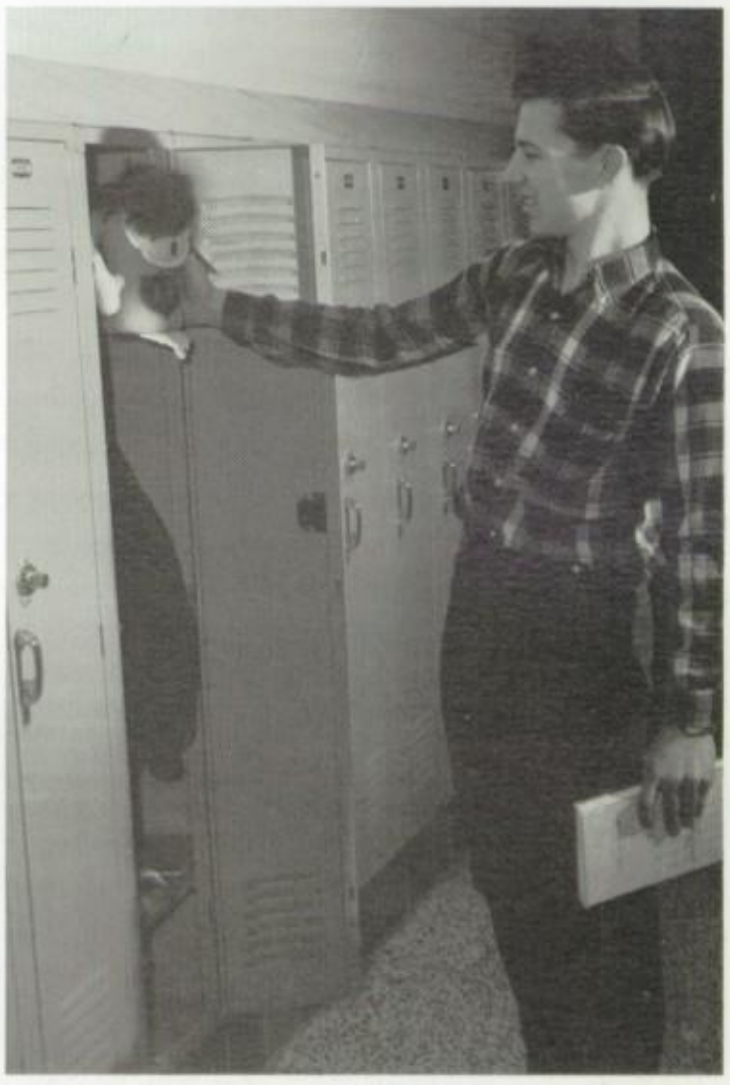
"So . . . what's a little avalanche?"

"Farrell's Follies"

"Where's the raisin counter?"

"Three pirouettes, one chest shot, and a little prayer . . ."

"Are you **morally** certain?"



"I bet not even your hairdresser knows for sure!"

"They came, they saw, they conquered, and nothing else will ever be the same."

"Smile . . . you're on candid camera!"

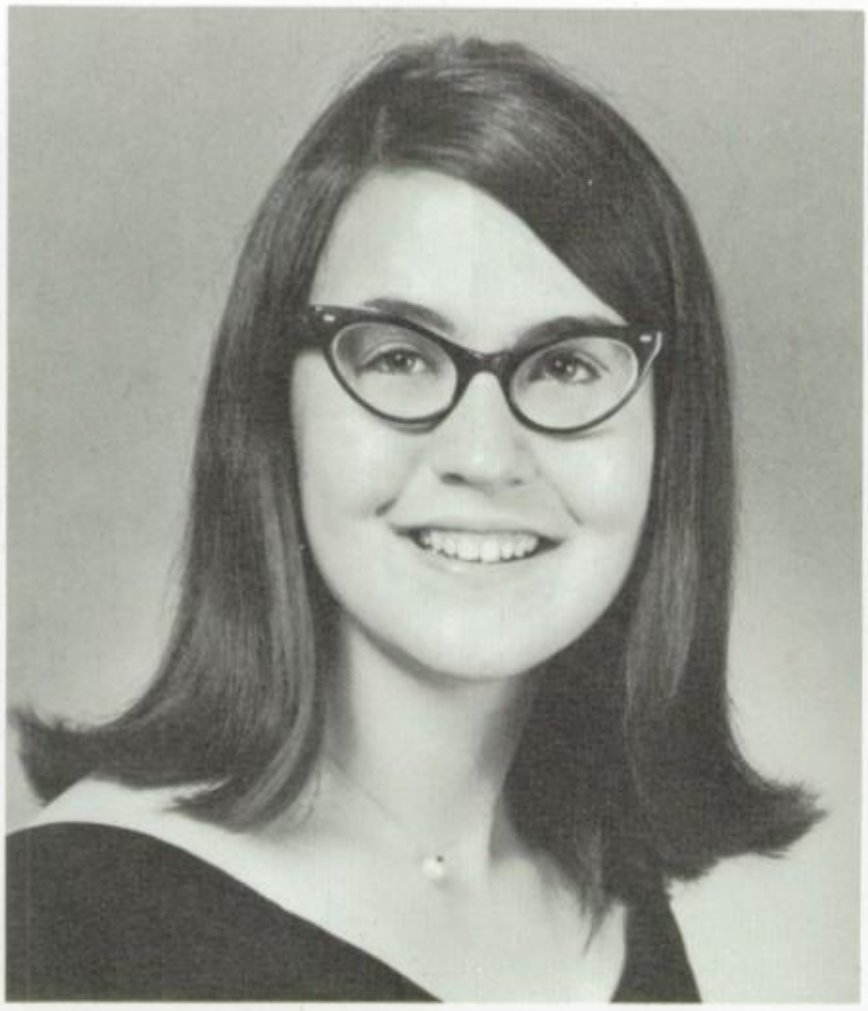
Valedictorian



A superior intellect, a cheerful countenance, and a readiness to serve are qualities which make Betty Hofmann, our valedictorian, a girl who will be missed in years to come at Averill Park High. A New York State Regents Scholarship winner, Betty has excelled in a triple major in foreign language, science and mathematics by maintaining a 95.5 average throughout four years of college preparatory study.

Betty's willingness to accept responsibility and be of service to her fellow students is most apparent. She devoted much time in her sophomore and junior years serving as president of her class and has served in her senior year as business manager of Threshold and president of 85 Club Council. In addition, she has been a member of National Honor Society, Math Club, Student Council, Future Teachers Club, Ski Club, SPORTS Club and Current Events Club.

Accepted through early admission at Alfed University, Betty plans to pursue a study of ceramic engineering. May the best of everything come to a girl who has contributed much to others.

Salutatorian

In our salutatorian, Barbara Biski, is found the rare combination of an alert mind, a willingness to serve, and a gay heart. Throughout her four years at Averill Park High, while majoring in science, mathematics and foreign language, Barb has maintained a 91.5 average. She received a letter of commendation for her excellence of performance on the National Merit Scholarship Exam as well as a New York State Regents Scholarship.

In addition to maintaining academic excellence, Barb has served as president of the Future Teachers Club and vice-president of the National Honor Society during her senior year. She has also participated in Math Club, Pre-Med Corps, Ski Club, 85 Club Council, Current Events Club and Threshold staff.

Barbara plans to attend State University at Oswego come September to pursue a course of study leading her to a career as an English teacher. Though she has made a good start on her own, we hope that the future holds in store greater success and happiness for Barbara.

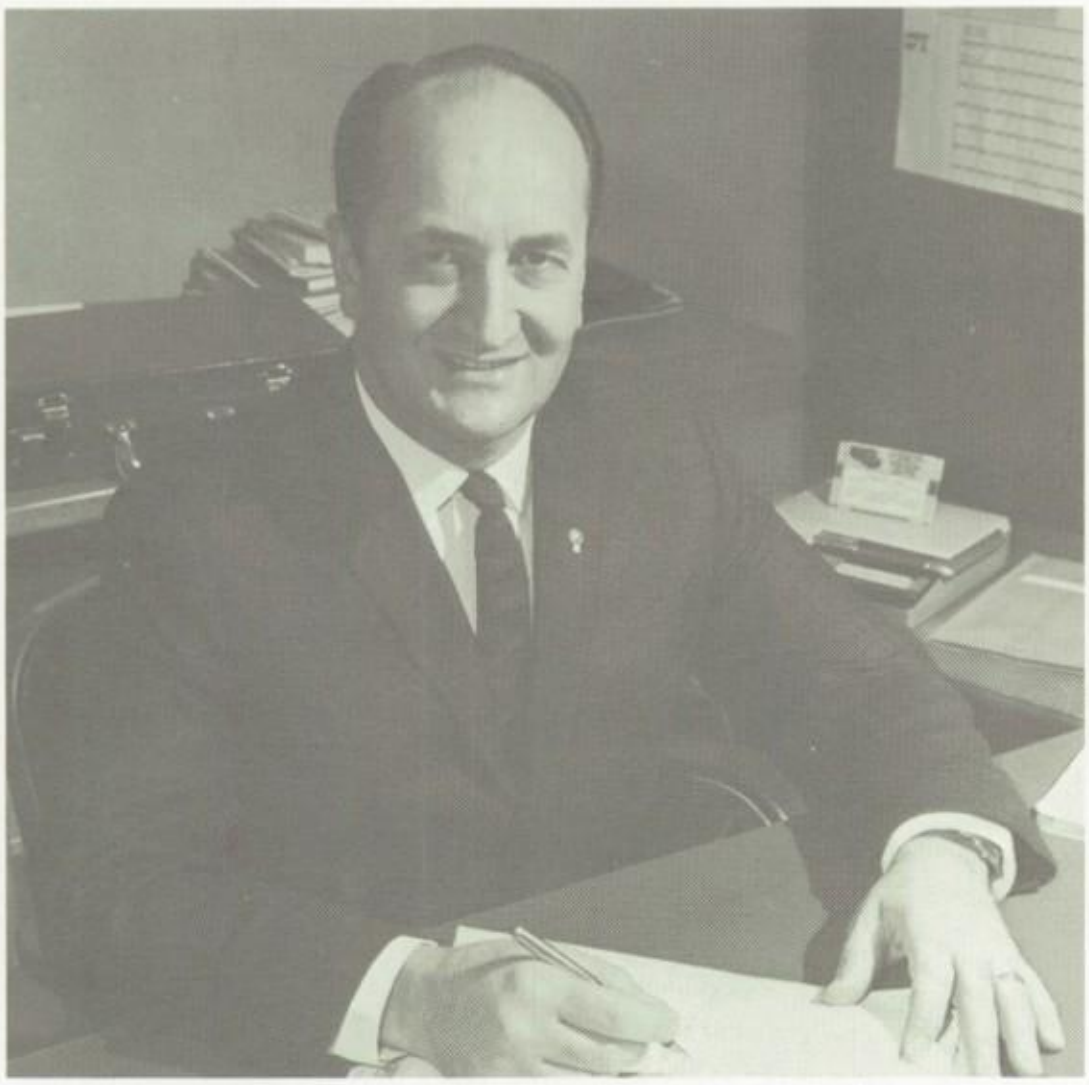
Board of education

We are fortunate to have a group of devoted, interested individuals to serve on our Board of Education. Few realize the dedication of these people who devote many, many hours to major as well as minor matters of concern in the education of students in this school district. We extend a sincere thanks to these people for their endeavors in our behalf.

Superintendent



To Class of 1968:

It is a pleasure to extend greetings to you. Soon you will be completing an important phase of your experience and you will be launching into new areas of endeavor.

What does the future hold in store for you? World crises, race riots, work stoppages, continuing inflation, and many other problems may make you a little apprehensive about your future years. Yes, there certainly is reason for concern, and it should impress you with the importance of preparing yourself for whatever may come your way.

First of all, you better have a good set of basic values. As you leave high school, you will be subjected to all kinds of pressures by your peers. Are you equipped to react maturely and judiciously to invitations to join a protest demonstration, to espouse some particular cause, to try something "for kicks", and many other similar solicitations? Some will be worthwhile, but most of them will not. Will you be able to discern between them? Then will you have the courage to stand among others and follow through on your convictions? I hope so!

You will also have a need to work continually toward the development of skills and knowledge. Our changing society demands this and your success will be directly related to your recognition and application of this need.

Your parents and teachers have given you opportunities to cultivate some basic skill and knowledge which will be increasingly important to you. What you have done in the past, and what you do in the future will influence your success and happiness. In spite of the exterior forces acting upon you, you alone can tip the scales in your favor.

Good luck!

Gregory Benson
Superintendent of Schools

Principal

To The Class of 1968:

During the last decade the most serious problems facing us as individuals and as a world have been social and political. One has only to recall a few of the tragic failures in social adjustment of this period to understand the great need for improvement and understanding in the field of human relations.

Will increased knowledge in Science and Mathematics meet this need? Will a higher standard of living achieve the goal? Will men on the moon fulfill the challenge? Yes, each of these is necessary and all other skills of civilization; but only when tempered by each man's concern for the welfare of each other man, regardless of race, color or creed. This is the task to which each of you must dedicate yourself beginning immediately if the challenge to this generation is to be met.

On behalf of the faculty may I add my best wishes for your success as you seek to find your place in today's world.

E. Perry Hicks
Principal

Assistant principal

My Dear Seniors:

A society is made by man, so man, in his turn, is made by his thoughts, his decisions and his choices. Nothing ever happens to the world which did not first happen inside the mind of some man.

Our happiness consists in fulfilling the purpose of our being. Every man knows, from his unfulfilled hunger for them, that he was built with a capacity for three things of which he never has enough. He wants life—not for the next few minutes, but for always, and with no aging or disease to threaten it. He also wants to grasp truth—not with a forced choice between the truths of science or geography, but he wants all the truth. Thirdly, he wants love—not with a time limit, not mixed with satiety or disillusionment, but love that will be an abiding ecstasy.

When enough men have found this way to happiness, they will find one another in brotherhood. Social peace will then ensue.

Remember: "Every great achievement is but the lengthened shadow of a great man."

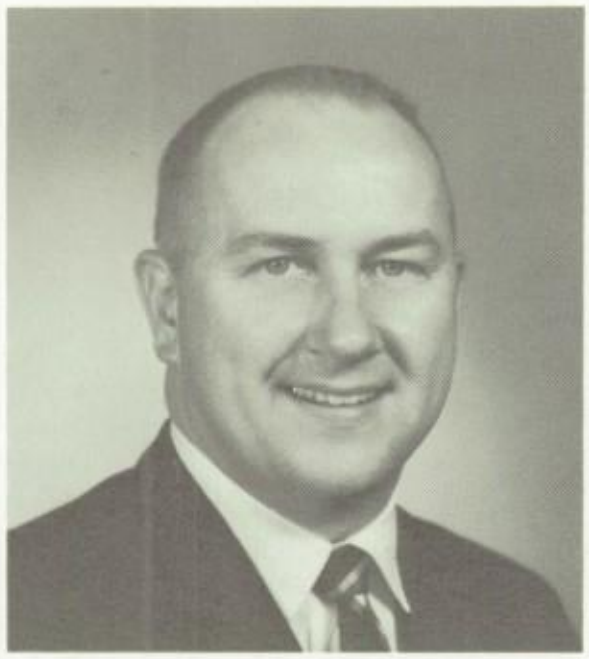
Office staff

We extend a special thanks to the secretaries, very vital members of our high school community, for their cheerfulness and help, despite the trials that each day might bring.

MR. RAY

MRS. BUYER



Our guidance counselors have aided and encouraged each of us in our academic struggles and planning for the future. Their constant willingness to help has been a benefit to our career in school and provided the initiative for post-graduation goals.

MISS CLUM

MRS. JOHNSON

A library is one of the most vital parts of any educational center, and ours is no exception. Miss Clum's competence as librarian, and the help of her assistants, has been invaluable to the students in their endeavor to make use of this facility.

Student Assistants

The tasks of our nurse, Mrs. Ringwall, are innumerable. Yet, she performs each of them well and helps train those students who are interested in a health career. We appreciate the aid and supervision that she has given us throughout the year.

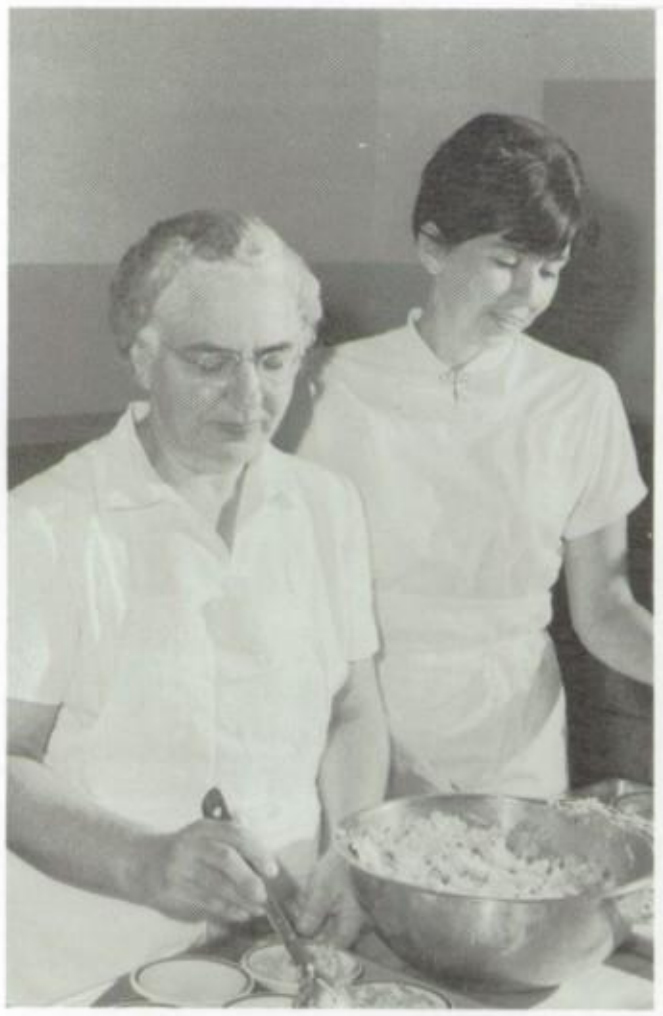
The importance of our cafeteria staff cannot be overlooked. Their effort to provide one of the necessities of school life continues each day, and their service is worthy of praise.

Mrs. Lange



Bus drivers

We are grateful to the bus drivers for the transportation they provide to every student.

If not for the dedication of the custodial staff, our building would definitely not maintain the cleanliness and attractiveness it has all-year round.

Memorial

MR. RALPH BRUST

Although he did not touch many of our lives personally, the duties he performed as he worked in our midst affected each of us. For it was his job to instill in us an appreciation for the beauty of our building, and his daily achievements made this possible. The smaller duties were accompanied by the overall goal of keeping the school clean and respectable. Mr. Brust knew what he was to do and did it well. It is with gratitude that we recall his presence and express our appreciation for the fine work that he accomplished while serving Averill Park High School.

The alma mater

We come to honor and sing our praise to alma mater true.

Our loyal hearts will ne'er forget the grand old gold and blue.

We'll always strive in all we do to credit thy dear name.

And may your glory ne'er decline, and our warriors bring you fame.

Although we leave thy hallowed halls and face a world of strife,

We'll oft return and renew again those friendships made for life.

And gather round and reminisce those good days of our youth.

When songs are done we will still be true, oh Averill Park, to you.
